**REVELWOOD EARNS IBM BUSINESS ANALYTICS BUSINESS PARTNER ACHIEVEMENT AWARD
FOR THE REVELWOOD BPM SUITE**

-- Revelwood Selected for Providing Ingenious Solution and Exceptional Client Value --

PARSIPPANY, NJ AND LAS VEGAS—OCTOBER 24, 2012—[Revelwood](#), an [IBM Premier Business Partner](#) and winner of the prestigious [2011 IBM Beacon Award for Business Analytics Innovation](#), was awarded the 2013 IBM Business Analytics Capability Authorization Business Partner Achievement Award at the Business Partner Summit at Information On Demand 2012. Only 12 IBM partners worldwide received an IBM Business Analytics Achievement Award this year. A list of all winners can be found here: <http://www-01.ibm.com/software/data/2012-conference/awards.html>.

These awards recognize business partners who have demonstrated excellence in delivering business value with Business Analytics, Predictive Analytics, Enterprise Content Management and Information Management software. Revelwood was selected from business partners worldwide who have provided ingenious solutions and exceptional client value for the [Revelwood™ BPM Suite](#)—an out-of-the-box implementation accelerator for enterprise financial planning and reporting that runs on the IBM Cognos TM1 and Xcelerator platforms. The BPM Suite ensures that projects are delivered in less time than would be required by a standard implementation, while delivering their intended business objectives and providing a rapid return on investment.

The BPM Suite is comprised of pre-built data models, templates, data processes, business rules, navigational tools and reports that streamline the implementation process. It has the built-in intelligence needed to support common financial planning and reporting requirements such as revenue and expense planning with supporting line item detail, staff planning, capital planning, allocations, currency translation and more.

“Receiving this award is a testament to our more than 17 years of experience delivering the best solutions possible for our clients,” said Ken Wolf, CEO, Revelwood. “This award wouldn’t be possible without our stellar team, a commitment to developing innovative solutions that enhance IBM Cognos software implementations and the successful partnership we share with IBM.”

Earning the 2013 IBM Business Analytics Capability Authorization Business Partner Achievement Award comes on the heels of Revelwood earning the 2011 IBM Beacon Award for Business Analytics Innovation last year.

About Revelwood

Revelwood is an IBM Premier Business Partner offering implementation services, training and support that bring ease, speed and flexibility to [financial planning and reporting](#), [financial consolidation](#), [business intelligence](#) and [financial governance](#). Combining IBM Cognos TM1, Express, Business Intelligence and FSR software with best practices and pre-configured, out-of-the-box applications like Revelwood’s [BPM Suite™](#) and [Performance Toolkit™](#), Revelwood helps companies to accelerate the building and deployment of performance management solutions. Hundreds of successful implementations across North America and proven ROI for dozens of Fortune 1000 and mid-market companies are just a few reasons companies turn to Revelwood for their performance management needs. Additional information on Revelwood can be obtained by visiting <http://www.revelwood.com> or calling 201.984.3030.
