

# Revelwood Health Checks for Adaptive Planning

Optimize performance.  
Improve adoption.  
Get actionable insights.

## What Is a Revelwood Health Check?

A Revelwood Health Check helps you optimize your Workday Adaptive Planning environment, improve adoption, and reduce risk through expert review and actionable insights.

Revelwood Health Checks provide a structured, expert-led review of your Workday Adaptive Planning environment—so you can understand what’s working, what’s holding you back, and where to focus next.

## Who It’s For

Organizations using Workday Adaptive Planning

Customers looking to improve performance, usability, or governance

Finance and FP&A teams preparing for growth, change, or new requirements

Teams planning enhancements, new modules, or future phases

## What We Review

- ✓ Model Design & Structure
- ✓ Data & Integrations
- ✓ Reports & Dashboards
- ✓ User Adoption & Security
- ✓ Processes & Workflows

## What You Get

- ✔ A comprehensive review by certified Workday Adaptive Planning experts
- ✔ Clear identification of risks, inefficiencies, and improvement areas
- ✔ Actionable, prioritized recommendations—not just observations
- ✔ Guidance aligned to Workday best practices and real-world use cases

### Key Benefits

A Revelwood Health Check helps you optimize your Workday Adaptive Planning environment, improve adoption, and reduce risk through expert review and actionable insights.

### How Health Checks Fit In

Health Checks can stand alone or serve as the foundation for broader initiatives such as system optimization, planning cycle improvements, training and enablement, or ongoing support through Revelwood Advantage Services.

## Why Revelwood

Revelwood is a trusted Workday Adaptive Planning partner delivering practical, actionable recommendations backed by real-world FP&A experience.

## Ready to Get Started?

Let's make sure your Workday Adaptive Planning environment is working as hard as your team.
